ABOUT CANOPY
Canopy is an award-winning not for profit organization dedicated to protecting the world’s forests, species and climate and supporting the advancement of community rights. Canopy collaborates with more than 750 companies to implement robust environmental policies, catalyze innovative solutions, transform unsustainable supply chains and secure forest conservation and human rights. Best known for greening the Harry Potter series internationally, Canopy’s partners include Stella McCartney, The Guardian, The Gap, Sainsbury’s, Penguin Random House, The Globe and Mail and H&M. Canopy’s work relies on the support of individual donors who share our passion for the planet.
Canopy is a nimble, fast-paced, results-driven conservation organization with a strong track record of success. We know that our planet is under stress and believe that change is long overdue. We think 800 year old trees don’t need to be used to make packaging, t-shirts or junk mail - and we’re committed to doing all we can to keep them standing. We love chocolate and playing charades. Working hard is in our DNA - as is having fun and being creative. Pragmatic and audacious, we are driven to produce results at a proportional scale to the environmental problems our world is grappling with. We are part of the growing movement that believes Nature Needs Half - a science-driven initiative that recommends 30-50% of the world’s forests need to be protected by 2030, to ensure forest ecosystems are able to fulfill the ecological functions and services we need for life on Earth.
1. Greening the Harry Potter book series and with it revolutionizing the way books are published.
2. Ensuring that being stylish doesn’t cost the earth – CanopyStyle is the hottest thing on the runway with 49.5% of the global viscose production now assessed as “green shirt” status.
3. Conserving millions of acres of forest alongside environmental allies and traditional communities in Canada’s great bear Rainforest, Boreal forests and Indonesia’s rainforests.
4. Kick-starting the commercial production of Next Generation Solutions to revolutionize how viscose, paper and packaging is produced.
5. Getting out of the box. Our Pack4Good campaign is picking up strong early momentum as we work to shift this supply chain’s impact on forests.
