Canopy is a nimble, fast-paced, results-driven conservation organization with a strong track record of success. We know that our planet is under stress and believe that change is long overdue. We think 800-year-old trees don’t need to be used to make packaging, t-shirts or junk mail - and we’re committed to doing all we can to keep them standing. We love chocolate and playing charades. Working hard is in our DNA - as is having fun and being creative. Pragmatic and audacious, we are driven to produce results at a proportional scale to the environmental problems our world is grappling with. We are part of the growing movement that believes Nature Needs Half - a science-driven initiative that recommends 30-50% of the world’s forests need to be protected by 2030, to ensure forest ecosystems are able to fulfill the ecological functions and services we need for life on Earth.
